Note from Jason Paquette (2/21) re. Shoreham bridge #8 on Richville Rd. (emphasis mine)

Hi Mike,

I have attached a copy of the work that is going to be done on the Richville Bridge #8 (*Note: I can share the document if anyone wants it – MW*). We are doing everything that is on the list except replacing the bridge bearings. Work is scheduled to start in mid April by Parent Construction. I did receive a Vtrans structures grant for \$175,000 and we are funding the rest out of funds we have set aside to do so. I also am trying to attach the Final inspection report from Hoyle Tanner which is what we used to base our needs off of. At the time of the inspection we were told that there was really no funding available except Structures grants. The bridge condition was that it was in good shape and the funding was only for bridges that were failing. No money was available for preventative maintenance.

...

Thanks Jason
