

**Addison County Emergency Planning Committee
MINUTES
VSP Barracks, New Haven • 24 June • 5pm**

Local Emergency Planning Committee Meeting:

No meeting quorum – minutes and financials will be reviewed at August meeting

Discussions:

- HazMat Plan has been updated with the Tier II information included. Tom Hanley asked what happens to the plan. The plan has procedures, inventory and phone numbers. More of a “Resource Plan” rather than a plan to follow. Valerie would like a copy as soon as they are available.
- SERC – LEPC Liaison meeting – July 2020 is the last fiscal year. By July 2021 there will be a single group. The SERC desire would be to have the LEPC groups to act as a liaison for the county except for collecting Tier II and hazmat data. The budget will be minimally funding - \$4,000 – will go to salaries and maintenance of the programs. The LEPC will fall under VEM more than SERC. VEM would like the town EMD’s to still have meetings.

No Meeting in July

August Meeting – possibly a dinner meeting at Mr. Ups on the deck. Speakers – EMD roundtable. Continue discussion about funding and spending down budget.

Bridge Project – Main Street will be closed July 13th to mid September. Need to be sure local EMS, Fire, Police are all up to speed on closures

Upcoming Events – see attached.
