Re: Suggested changes to the draft Population and Housing section, as per feedback from the
November 10th ACRPC public hearing.

Please review the following substantive changes made to the draft Housing and Population section.

Page 4: **Settlement History:** New language describing the arrival of European settlers to the region and their impact on the culture and landscape.

Page 10: **Migration:** Added a discussion on migration into Vermont due to extreme weather occurrences.

Page 11: **Population Projections:** Added a bullet point regarding in-migration due to climate concerns.

Page 52: **Goal 4:** Change the wording of #3 stating that ACRPC shall help communities work towards meeting their 2025 and 2050 renewable energy generation targets by supporting implementation of their adopted, local Enhanced Energy Plans.

Additional minor formatting and spelling changes were made throughout the draft Population and Housing section of the Regional Plan.
