

# ENERGY SCORECARD: WEYBRIDGE

Overall  
Score:  
**B**

## Enhanced Energy Plan Status: Regionally Approved

### Energy Efficiency

**Target:** 2025

Energy Usage Reductions 11%

Weybridge's total Energy usage has decreased by 4.2% between 2016 and 2020. However, average residential usage has dropped 7.3% in that same period.

**Grade:  
B**

#### Take Action:

- Promote the replacement of lighting and appliances with efficient alternatives to homeowners and businesses
- Replace outdated appliances and lighting in municipal buildings

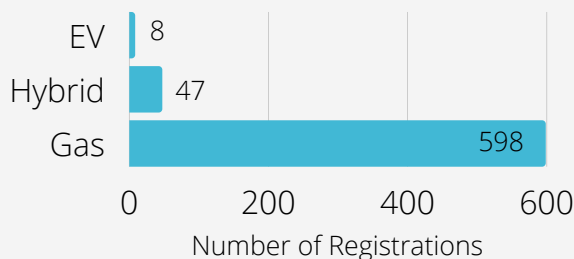

Contact Efficiency Vermont to learn more about available incentives.

### Transportation and Land Use

**Target:** 2025

EVs in Use 58

According to the DMV, 55 of the 665 cars registered in Weybridge are electric, equalling 95% of the 2025 target.

| Land Use Planning                      | Current ? |
|--|-----------|
| Town Plan                              | ✓         |
| Zoning and Subdivision Regulations     | ✓         |
| Village Center or Downtown Designation | ✗         |

#### Take Action:

- Update zoning regulations to increase density and transportation efficiency.
- Encourage the Installation of public EV chargers on municipal property and at local businesses.
  - Contact the [GMP Business Innovation Team](#) for help.
- Host an EV demonstration event in your town.
  - Contact ACRPC or [Drive Electric VT](#) for more information.

**Grade:  
B**

# Thermal Efficiency

| Targets:             | 2025 | 2035 | 2050 |
|----------------------|------|------|------|
| Heat Pumps Installed | ✓    | ✓    | 170  |
| % Homes Weatherized  | ✓    | 9%   | 47%  |

## Heat Pumps

Since 2016 Weybridge has surpassed the 2025 and 2035 targets and installed 106 of the 170 heat pumps necessary to reach the 2050 target.

## Weatherization

|                                    | Project Count |
|------------------------------------|---------------|
| Home Performance with ENERGY STAR® | 11            |
| Other Weatherization               | 2             |
| New Residential Construction       | 7             |
| <b>Homes Weatherized</b>           | <b>28</b>     |

Weybridge has surpassed the 2025 target and weatherized 5% of homes.

### Take Action:

- Perform outreach to community on benefits and incentives of weatherization.
- Perform energy efficiency retrofits on municipal buildings

Contact ACRPC or Efficiency VT for support

# Renewable Energy Generation

| Target:                    | 2025   |
|----------------------------|--------|
| Renewable Generation (MWh) | 36,486 |

Weybridge generates 30,740 MWh of energy each year, equal to 84% of the 2025 target. Excluding hydro power, Weybridge produces 923 MWh of energy from solar, wind, and biofuel.

### Take Action:

- Participate in a community solar project.
- Consider commercial and municipal properties for rooftop or ground mount solar
- Include anaerobic digestion in wastewater and manure management plans.

Contact ACRPC to learn more about opportunities.
