

Addison County Regional Planning Commission  
Housing and Population Subcommittee  
Draft Minutes 12/19/23

Staff: Katie Raycroft-Meyer

12/13/ 23 Members present : Tim Davis, Shannon Haggett, Tim Bouton

- Meeting called to order 5:30
- Katie ran through the power point on the Housing Survey Key Takeaways as presented to the full commission in November. The Committee then discussed what other findings we were interested in revealing from the data.
- The following data and queries were proposed. Katie and Shannon will follow up.
  - Compare age demographics of respondents, to county age demographics.
  - Currently where do the respondents live, who want more 'village housing'? In the Village or other? Do single family home owners want to move to the Village Center? young or old?
  - What factors, other than age, play into the desire for Senior housing?
  - Compare length of time in home, with % of income spent on housing costs.

Some other thoughts:

- Look at the demographics of respondents that are interested in developing ADUs
- Look at the age of respondents in relation to % of income spent on housing costs.
- After this deeper dive into the results, the Committee would like to get a version of the survey results out to the larger community.
  
- Next meeting: 01/10/24 at 5:30 at ACRPC offices.
